## TANDD AND CAS DATALOGGERS ARE BACK FROM PITTCON

### *Wireless Solutions for Temperature Monitoring & More*

CAS DataLoggers is back from Pittcon, the world's largest annual conference and exposition for laboratory science! Together with TandD we showed our visitors the future of data collection—wireless data loggers! TandD's WiFi temperature monitoring and cloud technology is an ideal way to save both time and cost otherwise spent taking manual measurements.

Additionally, T&D's free WebStorage Service is a great way to store your data online.

Data management has never been easier! Learn more about how these products can automate your application today—call CAS DataLoggers at (800) 956-4437!

### Fully-Automate Data Collection with T&D!

With TandD wireless data loggers you can view data anytime from anywhere! TandD manufactures a wide range of Wireless and Standalone Data Loggers featuring Web-based data collection and alarm features. View, share and archive recorded data—all with NO monthly fees!

T&D data loggers are compact for quick installation in labs and clinics. These solutions can monitor and record Temperature, Humidity, Voltage/Current or additional measurement values.

Using a smartphone or tablet and T&D's dedicated apps, your temperature data is always available to check in real time and to share on the cloud! This makes it easy to get alarms and to give proof of best practices to inspectors.

### Thermo WiFi Series

TandD's TR-7wf Wireless LAN Data Loggers have a large LCD display

showing current values and other stats including logger status and memory capacity. You can set the data loggers to upload data to the cloud at any interval between once per minute and once per day. For example if you only need to monitor temperature, the TR-71wf 2-channel Temperature Data Logger has external probes to measure and record from -60°C to +110°C (-76°F to 230°F).

### Free Data Storage Service!

Now you can view data and receive alarms no matter where you are, using your mobile device! TandD's free WebStorage Service is perfect for processing and managing data recorded in remote areas and for designating several people to view the same data whenever they want. Additionally, you can use your Smartphone or Tablet to directly login to view and download data and alarms using the free TandD Thermo App for iOS and Android. You can also display data in graph form and download it for local archiving and proof of best practices.

### Call the Experts!

At CAS DataLoggers we have the most comprehensive selection of data logging equipment available anywhere! As a leading data logger distributor, we offer TandD temperature loggers for businesses and organizations in every industry.

For more information on TandD Wireless Data Loggers, or to find the ideal solution for your application-specific needs, contact a CAS DataLoggers Application Specialist at (800) 956-4437 or visit our website at [www.DataLoggerInc.com](http://www.DataLoggerInc.com).
