BE THE FIRST TO SEE CUTTING-EDGE TECHNOLOGY AT ODORS 2020!

Held by the [Water Environment Federation](#) in cooperation with the Ohio Water Environment Association and The Water Research Foundation, Odors 2020 showcases the latest on odors and air pollutants management. The biennial Odor Conference is designed to educate practitioners, facility owners, operators, researchers, and public administrators about current odor issues, including regulatory requirements and methods for analyzing problems and finding solutions.

CAS DataLoggers Sales Manager Pete Martin will be on hand at the booth showing visitors how to automate gas and odor monitoring using OdaLog data loggers. Thanks to OdaLog's simple and effective gas monitoring, data can be quickly downloaded using IrDA or BlueTooth Wireless communications links.
