# NEW PRODUCT ANNOUNCEMENT

New ATI LOG-IC 360BT Transportation Data Loggers

CAS Dataloggers is pleased to announce that we are now distributing the LOG-IC 360BT data loggers from American Thermal Instruments. The LOG-IC 360BT comes in 2 models, one for temperature and one for temperature/humidity. They offer Bluetooth connectivity with apps available for iOS and Android devices or desktop PC's. The apps offer the ability to push data to the CAVU Hub cloud to allow 24/7 accessibility via the web. Designed specifically for transport applications, they provide easy-to-use highly accurate cold chain monitoring solutions that allow you to read data without having to disrupt any packaging.

Other Features Include:

- LCD display with high, low, and average values
- Four programmable alarm limits
- 16,000 points of storage
- Up to 1- year battery life
- NIST Traceable

Currently, there are 2 models available:

- **LOG-IC 360BT** High precision temperature data logger with 0.25% accuracy
- **LOG-IC 360BT Temp+RH** temperature and humidity data logger

The LOG-IC 360BT data loggers are ideal for cold chain monitoring to provide a complete record along the distribution channels including when and how long the product was outside acceptable temperature or humidity ranges.
