

SWITRACE DATA LOGGERS ARE NOW ATI LOG-IC-360

The product family of cold chain/transportation temperature data loggers previously manufactured by Switrace is now being manufactured by American Thermal Instruments under the LOG-IC 360 brand.

The [LOG-IC 360 data loggers](#) offer the same great set of features as the corresponding Switrace models including:

- USB interface for configuration and data retrieval
- Up to 4 programmable alarms with indicator LEDs
- 5°C accuracy
- 8000-point data storage
- Adjustable startup delay
- Secure models for 21 CFR Part 11 Compliance
- Dry Ice models for measurement down to -80°C

The LOG-IC-360 temperature data loggers are available in both single use and multi-use models providing the flexibility to choose which device best suits your use case. Secure models for these loggers, when used with the [CAVU HUB](#) cloud for data management, provide [21 CFR Part 11](#) compliance for pharmaceutical and other medical applications.

American Thermal Instruments are thermal monitoring experts with over 40 years of experience in providing solutions for monitoring temperature-sensitive products. Headquartered in Dayton Ohio, they are part of the CAVU group, a family of companies providing unique products for thermal management and temperature monitoring.
