

TRANSDUCERS DIRECT ANNOUNCES IMPROVEMENTS TO CIRRUSSENSE APP

CAS is pleased to announce a major update to the Pressure Pro App for Transducers Direct [TDWLB-DL](#) wireless pressure data loggers. The updated app, now called CirrusSense, includes a number of enhancements to improve performance and versatility providing better reporting, connectivity, and overall communication efficiency.

This name change reflects the comprehensive range of wireless capabilities offered by Transducers Direct's CirrusSense™ family of products.

The new features of the CirrusSense™ app include:

1. The new Bluetooth scanner user interface adds the ability to start and stop scanning and filtering by signal strength.
2. Now you have the ability to sign into your CirrusSense™ account through the settings screen.
3. Once the Cellular Gateway is available you will be able to seamlessly add your account.
4. You will be able to pair and un-pair devices from the Cellular Gateway.
5. Ability to instantly see the latest readings for a TDWLB sensor paired to the Gateway.

This name change and new icon better reflect the comprehensive range of wireless capabilities offered by CirrusSense™ from [Transducers Direct](#). When updating your app, search for CirrusSense™ (Pressure Pro) in the app store.

For more info on the CirrusSense App, [TDWLB-DL](#) wireless pressure loggers, or to find the ideal solution for your application-specific needs, contact a CAS Data Logger Applications Specialist at **(800) 956-4437** or www.DataLoggerInc.com.
